START. YOU NEED A START
EASY ENOUGH TO REPEAT.**

SAVE IT. DO IT. GET STRONGER.

WHAT'S IN THESE 7 DAYS

01

10–15 minutes a day.

Short, single-session workouts.

02

No equipment needed.

A soft floor is enough. A mat is optional.

03

Every move has three levels.

Beginner, Standard or Advanced. If it gets hard, drop a level; don't quit.

04

A clean starting point.

By the end of the week, you'll have a routine you can repeat.

HOW TO USE THIS GUIDE

The same three steps every day. Open the day's page, follow it in order, then mark the tracker.

1**3 MIN****WARM-UP**

Six moves, 30 seconds each. [Page 07.](#)

2**5-10 MIN****MAIN CIRCUIT**

The moves on the day's page, for the listed number of rounds.

SAFETY AND CHOOSING YOUR LEVEL

THIS IS NOT MEDICAL ADVICE

If you feel pain, dizziness, shortness of breath or pressure in your chest, stop and rest right away. If it doesn't pass, see a healthcare professional.

If you have an injury or a chronic condition, are pregnant, or had surgery recently, talk to your doctor or physiotherapist before you start.

NORMAL

A warm burn in the muscle, faster breathing, mild soreness the next day.

STOP

Sharp or stabbing joint pain, numbness, dizziness.

CHOOSE YOUR LEVEL

BEGINNER

You haven't exercised in a long time, or even knee push-ups are hard.

Easiest variation, lowest reps, longer rest.

STANDARD

You move 1–2 times a week and can do 10 bodyweight squats comfortably.

The move and reps as written on the page.

ADVANCED

You finish the Standard target with clean form and controlled breathing.

Top of the rep range, or a slow 3-second lowering.

If you're not sure, start at Beginner. Your level can differ from move to move.

3-MINUTE WARM-UP

Six moves, 30 seconds each. Don't stop in between; set a timer for 3:00.

Repeat Week 1. It's not a failure, it's an adjustment.

5-7

Keep going. Fix your weakest item this week.

8-10

You're ready. Move on to the 30-day path.

30-DAY PATH

Use the same 7-day structure for four weeks. Change only one thing each week.

WEEK 1

LEARN THE FORM

Use this protocol as written. Find your level for each move.

WEEK 2

ADD A ROUND

Add one round to every workout. Reps and variations stay the same.

WEEK 3

SLOW THE LOWERING

A 3-second lowering on squats, push-ups and lunges.

WEEK 4

ONE VARIATION UP

Move up one level in the library. Repeat the Day 7 test at the end of the week.

If a week was hard, repeat it. Progress is measured by form, not the calendar.

7 DAYS DONE

IF YOU FINISHED ALL 7 DAYS DM “CONTINUE”
